

Vision Statement

To be a pre-eminent engineering, computer science, and technology program that prepares students from diverse backgrounds for productive careers by providing them with a student-centered, practically-focused quality learning experience.

Mission Statement

The mission of the College of Engineering, Computer Science and Technology is to graduate well-educated engineers, computer scientists and technologists who are prepared to meet the challenges of a rapidly changing, increasingly complex world. This will be accomplished through:

- *A well-qualified faculty who care about students and their success.*
- *A dynamic, up-to-date curriculum that has an optimal balance between theory and practice.*
- *Laboratories, computer facilities, and instructional classrooms on par with any engineering, computer science and technology program in the nation.*
- *Unique co-curricular opportunities for students such as participation in student design competitions, professional student organizations, and pre-professional employment.*
- *Opportunities for undergraduate and graduate students to participate in research projects.*
- *Mutually beneficial partnerships with area industry that take advantage of our location in one of most concentrated high-tech centers in the nation.*

Strong cooperative relationships with local high schools and community colleges.
