STEMEC Executive Committee meets at Cal State LA

2016 CSU Community College Counselor Conference

Pasadena City College hosts meeting for STEM advisors

Cal State LA hosts the 2016 STEM Education Consortium annual conference

## STEMEC Executive Committee meets at Cal State LA

September 30th, 2016

Our Consortium personnel joined together to have an executive committee meeting with staff and faculty. Topics of discussion were Institutional Review data as well as evaluation for our project. We are proud to have the Consortium staff and faculty help advise students about their STEM degree and goals in a STEM field. Each campus brings something new to our students, and we all work together to help them achieve their goals in science.

## Cal State LA STEMEC advisor visits Riverside to attend the 2016 CSU Community College Counselor Conference

September 27th, 2016

Our STEM advisor attended the CSU Community College Counselor Conference in Riverside, California. A big takeaway from this conference was to obtain information on how to assist diverse groups of students to complete the admissions and financial aid application appropriately. At STEMEC, we value working with students transitioning to a four year institution and we understand the importance of students receiving the most up-to-date information.

## Pasadena City College hosts meeting for STEM advisors

September 14th, 2016

The STEM Education Consortium met at Pasadena City College to introduce Cal State LA's STEM advisor at the Science Village. Faculty and advisors were introduced to each other to create collaborations between both campuses with the purpose of connection students to direct resources. We are here to help students achieve their goals in the STEM field. Our Consortium is a multi-institutional collaboration, which also gives students the capability to utilize the resources and advisement tools from all our partnering campuses.

## Cal State LA hosts the 2016 STEM Education Consortium annual conference

May 13th, 2016

We are proud to announce our 2<sup>nd</sup> annual STEM Education Consortium conference that was held on May 13<sup>th</sup>, 2016 at the Hertzberg Davis Forensic Center. This project would not have been a success without the site directors, faculty, and staff that have supported the center. We had introductions from one campus to another as well as discussed updates from the FITW Annual Director's Meeting which was held in Washington DC in April.
