STEM Education Consortium hosts the Natural Science student mixer

STEMEC at Cal State LA attends pop-up events at Glendale and West Los Angeles community colleges

Cal State LA STEMEC presents to students at West LA College

Cal State LA STEMEC presents to students at Pasadena City College

## CSLA faculty meet to discuss developments in flipped classroom strategy

November 21st, 2016

STEMEC faculty members met in November to discuss Cal State LA's development progress in the project. In this meeting observations from the flipped classroom strategy and advances in the Consortium's implementation method was discussed. Cal State LA's Consortium faculty focuses on executing flipped classroom curriculum strategy and evaluating student achievement.

## STEM Education Consortium hosts the Natural Science student mixer

November 17th, 2016

The Consortium hosted a student mixer for all natural science majors to get to know another and obtain more knowledge about more flexible degree requirements, changes on financial aid timeline, and the new procedures for graduation applications during the semester system. Our STEM advisor and Project Director were also present to help students with other topics and questions which may apply to students' needs and requirements for graduation. We hope to host another event in the spring to further help students and their needs.

## STEM Education Consortium attends Cal State LA pop-up events at Glendale and West Los Angeles community colleges

November 9th and 15th, 2016

At the STEM Education Consortium, we understand the need for community college students to obtain as much as knowledge as possible to transfer to their desired four year university. We attended the Pop-Up events, hosted by Cal State LA's Office of Admissions and Recruitment. These events were held at Glendale Community College and West Los Angeles College. We hope to attend more outreach events and get in touch with students to help them with their transition process to higher education and reach their goals.

## Cal State LA STEM Education consortium presents to students at West LA College

November 4th, 2016

The STEM Education consortium visited West LA College and their Friday's with Scholars for a student presentation introducing the STEM Education Consortium to students interested in pursuing STEM fields. Students learned about the program's comprehensive advisement across all three campuses and how West LA STEMEC participants have access to a direct contact with Cal State LA about transferring, STEM majors at Cal State LA, and resource referrals.
