STEMEC hosts information session about scholarships and internships for students

Welcome to Spring Semester 2017!

STEMEC Executive Committee meets at Cal State LA

February 16th, 2017

STEMEC staff helped put together an information session introducing as well as reinforcing the importance of scholarships and internships for students. Natural Science majors were invited on Thursday February 16th to attend the workshop and learn how to better themselves as a candidate for scholarship and internship applications. Students learned how to assess and manage the time for upcoming deadlines, approach professionals and faculty for letters of recommendations and what to consider after the application process. Often times, many students are not well exposed to knowing how to prepare for the application process and the steps that accompany it. Our Advisement Coordinator, Lourdes, is here to help STEM majored students achieve successful placement in a scholarship or internship position.

Welcome to Spring Semester 2017!

January—February 2017

Welcome to the new year!

Spring semesters begin on the following dates for the Consortium:

Cal State LA: January 23rd
