

## Creating Google Alerts

Step #1: Google "Google Alerts".

The screenshot shows a Google search interface. The search bar contains the text "google alerts" and a blue search button with a magnifying glass icon. Below the search bar, there are navigation tabs: "All" (selected), "News", "Apps", "Shopping", "Books", "More", and "Search tools". Below the tabs, it says "About 16,000,000 results (0.55 seconds)". The first search result is titled "Google Alerts - Monitor the Web for interesting new content" in purple. Below the title is the URL "https://www.google.com/alerts" followed by a dropdown arrow and the word "Google". The snippet of the result reads: "Alerts. Monitor the web for interesting new content .... Alert suggestions. Automobiles. google.com. Porsche 911. google.com. Ford F-150. autoblog.com." Below the snippet are two links: "Create an alert - Alerts Help" and "How Google Alerts work". The "Create an alert - Alerts Help" link has a snippet: "Visit Google Alerts. In the 'Create an alert about' box, enter the ...". The "How Google Alerts work" link has a snippet: "By creating a Google Alert, you can get email notifications any ...". At the bottom of the search results, there is a link: "More results from google.com »".

By creating a Google Alert, you can get email notifications any ...

Step #2: Enter a discipline-specific topic or phrase related to your educational or professional interests. It can be anything!

The screenshot displays the Google Alerts web interface. At the top left is the Google logo. The main heading is "Alerts" with the subtitle "Monitor the web for interesting new content". A search bar contains the text "diabetes research" with a magnifying glass icon on the left and a close button (X) on the right. Below the search bar is a form with an "Enter email" input field, a blue "CREATE ALERT" button, and a "Show options" dropdown menu. Underneath is an "Alert preview" section. It features a "NEWS" category label. The main preview text reads: "New funding for Alberta **diabetes research**" followed by "MetroNews Canada" and a truncated description: "Based at the University of Alberta, the Institute's Johnson & Johnson Diabetes Research Fund was created to focus on new discoveries in diabetes ...". To the right of the text is a small image showing a sign with "UNIVERS ALBE" and "MetroNews Canada" at the bottom.

Step #3: Select your preferences, enter your email address, and click “CREATE ALERT”. *Note: You do not need a Gmail account to use Google Alerts.*

The screenshot shows the Google Alerts interface. At the top left is the Google logo. The main heading is "Alerts" with the subtitle "Monitor the web for interesting new content". A search bar contains the text "diabetes research". Below the search bar, there are several configuration options:

- How often:** A dropdown menu is open, showing three options: "As-it-happens", "At most once a day" (which is highlighted), and "At most once a week".
- Sources:** A dropdown menu is open, showing "As-it-happens", "At most once a day", and "At most once a week".
- Language:** A dropdown menu showing "English".
- Region:** A dropdown menu showing "United States".
- How many:** A dropdown menu showing "Only the best results".

At the bottom of the configuration section, there is an input field for an email address containing "czimmer2@calstatela.edu", a blue "CREATE ALERT" button, and a "Hide options" link with a small upward-pointing triangle.

Below the configuration section is an "Alert preview" section. It is titled "NEWS" and shows a preview of a news article:

**First Type 1 Diabetes Patient in Europe is Free from Insulin Therapy after Undergoing Diabetes ...**  
 PR Newswire (press release)  
 Ospedale Niguarda Ca' Granda is a member of the worldwide Diabetes Research Institute Federation, a global alliance of researchers and medical ...

To the right of the text is a small thumbnail image of a newspaper page with the text "PR Newswire (pre..." at the bottom.

Step #4: Click to confirm your Google Alert.

Your Google Alert on diabetes research has been created and a verification email has been sent to [czimmer2@calstatela.edu](mailto:czimmer2@calstatela.edu). [Dismiss](#)
